Instructions to fill the Mother and Baby Follow-Up Register

1. S/No: This is the serial number assigned for every new mother recorded. It will take the form of 1,2,3,… as shown.

2. Date of Registration: This is the date the HIV-positive mother is first entered into this register for purposes of follow-up.

3. Mother's name: Record the mother's name as it appears on the ANC card/Mother's Passport.

4. Age: Record the mother's age in completed years.

5. ANC No: Record the mother's Antenatal clinic number as it appears on the ANC card or Mother's Passport.

6. Expected Date of Delivery: Record here the mother's estimated date of delivery (Check for this date on the ANC card)

7. Date of HIV test: Record the latest date the mother was tested for HIV. If not sure, estimate the date with the help of the mother herself

8. WHO Stage: Record the HIV Clinical Stage according to the WHO Clinical staging system (i.e. I or II or III or IV). Check for this from the ANC Register or the treatment notes

9. CD4 test date/results: Record here the mother's CD4 results. If not yet done, book mother for testing and record results later when the test is done

10. Mother's ARVs for PMTCT: Record here the ARVs regimen the mother is on e.g. Sd NVP + AZT, or AZT+3TC (Combivir), or HAART

11. Initiated on Septrin (Y/N): Record "Yes" if mother started on Septrin prophylaxis or "No" if she is not yet on Septrin

12. Date of delivery: Record here the actual date the mother delivered

13. Place of Delivery: Record here the place the mother delivered from e.g. if she delivered at a health facility, write down the name of the facility and if at home (or at a TBA) write "Home"

14. Infant's ARVs for PMTCT: Record here the ARVs the infant is receiving e.g. NVP syrup

15. Baby initiated on Septrin (Y/N): Indicate "Yes" if the baby is initiated on Septrin and "No" if the baby is not on Septrin.

16. Date of 1st EID test: Indicate here the date the baby was tested for HIV (DBS)

17. Results of the EID test: Record here the results of the EID test whether "Negative" or "Positive"
